# Golden Predator Mining Corp.

**(An exploration stage company)**

**Condensed Interim Consolidated Financial Statements**

**For the six months ended June 30, 2016 and 2015**

**(Unaudited – Prepared by Management)**

# NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

## 1. NATURE OF OPERATIONS AND GOING CONCERN

Golden Predator Mining Corp. ("Golden Predator" or the "Company") was incorporated under the Business Corporations Act (Alberta) on April 29, 2008 and continued into British Columbia from the jurisdiction of Alberta on October 21, 2015. The Company's head office is located at #510 - 580 Hornby Street, Vancouver BC V6C 3B6. Golden Predator is in the business of acquiring and exploring mineral properties in Canada and the United States.

These unaudited condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. The Company has no source of operating cash flow and operations to date have been funded primarily from the issue of share capital. At June 30, 2016, the Company has a deficit of $26,246,438 (December 31, 2015 - $27,403,758) and incurred a net loss of $2,621,545 (2015 – 1,910,436). At June 30, 2016, the Company has a working capital deficiency of $475,151 (December 31, 2015 – $906,587) and will require additional financing in order to meet obligations as they become due.

The Company's continued operations are dependent on its ability to raise additional funding from loans or equity financings or through other arrangements. There is no assurance that future financing initiatives will be successful. These conditions give rise to a material uncertainty which casts significant doubt on the Company's ability to continue as a going concern and, therefore, its ability to realize its assets and discharge its liabilities in the normal course of business.

These condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern adjustment appropriate. Such adjustments could be material.

## 2. SIGNIFICANT ACCOUNTING POLICIES

### a. Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its subsidiary Golden Predator Exploration Ltd.

Subsidiaries are entities that the Company controls, either directly or indirectly. Control is defined as the exposure, or rights, to variable returns from involvement with an investee and the ability to affect those returns through power over the investee. Power over an investee exists when the Company has existing rights that give it the ability to direct the activities that significantly affect the investee's returns. This control is generally evidenced through owning more than 50% of the voting rights or currently exercisable potential voting rights of a company's share capital. All intra-group balances and transactions, including unrealized profits and losses arising from intra-group transactions, have been eliminated in full.

Where necessary, adjustments are made to the results of the subsidiaries and entities to bring their accounting policies in line with those used by the Company.

## 2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### b. Basis of presentation and measurement

These condensed interim consolidated financial statements, including comparatives have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting. The policies applied in these condensed interim consolidated financial statements are based on IFRS issued and effective as of June 30, 2016.

The Company uses the same accounting policies and methods of computation as in the annual audited consolidated financial statements for the year ended December 31, 2015. The condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments which have been measured at fair value, and are presented in Canadian dollars, which is the Company's functional currency.

### c. Critical accounting estimates and judgments

The preparation of condensed interim consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates and judgments. It also requires management to exercise judgment in applying the Company's accounting policies. These judgments and estimates are based on management's best knowledge of the relevant facts and circumstances taking into account previous experience, but actual results may differ from the amounts included in the financial statements.

Areas of estimation and judgment that have the most significant effect on the amounts recognized in the condensed interim consolidated financial statements are:

**Valuation of mineral properties** - The Company follows the guidance of IFRS 6 to determine when a mineral property asset is impaired. This determination requires significant judgment. In making this judgment, the Company evaluates, among other factors, the results of exploration and evaluation activities to date and the company's future plans to explore and evaluate a mineral property.

**Fair value of derivatives and other financial instruments** - The Company's promissory notes are financial liabilities that previously contained both a derivative and non-derivate host component. The fair values of embedded derivatives, not traded in an active market, were determined using valuation techniques. The Company used its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. The Promissory Note was amended in the third quarter of 2015 to remove the share settlement option, thus as of the current period, there is no derivative asset related to the Promissory Note.

### d. New accounting policy

**Inventory –** Inventory consists of materials and supplies and finished goods and is recorded at the lower of weighted average cost or net realizable value.

## 2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

**New accounting standards and interpretation**

Effective (proposed) for annual periods beginning on or after January 1, 2018:

IFRS 9, Financial Instruments – Classification and Measurement. IFRS 9 is a new standard on financial instruments that will replace IAS 39, Financial Instruments: Recognition and Measurement.

IFRS 9 addresses classification and measurement of financial assets and financial liabilities as well as de-recognition of financial instruments. IFRS 9 has two measurement categories for financial assets: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is at amortized cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. Otherwise it is at fair value through profit or loss.

On January 13, 2016, the IASB issued IFRS 16, Leases ("IFRS 16"), according to which, all leases will be on the balance sheet of lessees, except those that meet the limited exception criteria. The standard is effective for annual periods beginning on or after January 1, 2019. The Company is currently assessing the impact of IFRS 16 on its condensed interim consolidated financial statements.

### a) Sonora Gulch, Yukon

The Company owns 100% of the Sonora Gulch property, subject to a remaining 1% net smelter royalty (NSR). The Company has the option and right to purchase 50% of the remaining NSR at any time for $1,000,000. The Company is required to pay all taxes, levies and other expenditures as may be required in order to maintain the property in good standing with the applicable regulatory bodies.

### b) Brewery Creek, Yukon

The Company owns 100% of the Brewery Creek Project, subject to a 2% NSR on the first 600,000 ounces of gold produced, following which the NSR will increase to 2.75%. The Company has the right to repurchase 0.625% of the increased NSR for $2,000,000 (which, if so acquired, would result in a 2.125% NSR). The property is also subject to a sliding scale royalty based on the price of gold on the first 21,000 ounces of production, as well as a 5% net profits royalty ("NPR") over a portion of the property.

## 5. MINERAL PROPERTIES (cont'd)

### b) Brewery Creek, Yukon (cont'd)

An Amended and Restated Socio Economic Accord for the Brewery Creek Project was entered into with the Tr'ondëk Hwëch'in First Nation ("THFN") which took effect September 2012. As consideration for entering into the agreement, the Company paid the sum of $400,000, payable in shares, of which $250,000 was paid on signing and $150,000 was paid subsequent to the period ended June 30, 2016 (issued 245,901 shares).

Upon receipt of all required permits in respect of the portion of the mine site outside the existing permitted area, the Company will pay an additional sum of $300,000 payable in shares at the then applicable 5-day VWAP. Key aspects of the Socio Economic Accord include the Company's commitment in respect of training and scholarships, and the annual community legacy project grant, amounts to $45,000 per annum. The Company has also agreed to pay the THFN a 2.5% NPR on revenue from the mine site, excluding the existing permitted area.

### c) 3 Aces, Yukon

The Company owns 100% of the 3 Aces property, subject to the NSR described below.

An annual advance royalty payment of $45,000 will commence on April 1, 2015 and continue until the commencement of commercial production. The vendor will retain a 2% NSR on the property. If a resource estimate in excess of 500,000 ounces at a grade greater than 5 grams per tonne is defined on the property (in compliance with the Canadian Securities Administrators' National Instrument 43-101, Standards of Disclosure for Mineral Projects), the vendor's NSR will increase to 2.5% and the vendor will receive a bonus payment of $300,000 in cash or equivalent Golden Predator common shares. If a National Instrument 43-101 compliant resource estimate in excess of 1,000,000 ounces at a grade greater than 5 grams per tonne is defined on the property, the vendor's NSR will increase to 3% and the vendor will receive an additional bonus payment of $300,000 in cash or equivalent Golden Predator shares. Each 1% of the NSR can be purchased by the Company for $2,000,000. The property is also subject to a 1.0% NSR to Till Capital.

### d) Marg, Yukon

The Company owned 100% of the Marg property, subject to a 1% NSR to Till Capital.

In March 2015, the Company announced a Joint Venture and Option Agreement (the "Agreement") on the Marg Project, Yukon. During the year ended December 31, 2015, the first $50,000 cash payment and 1,539,643 shares at a fair value of $32,332 were received. During the period ended June 30, 2016, the Company received an additional 5,656,777 shares at a fair value of $55,573. During the period ended June 30, 2016, the optionee terminated the agreement and returned control of the project to the Company.

During the period ended June 30, 2016, a third party purchased 100% of the property from the Company for consideration of $50,000 and 1,967,280 shares (received subsequently). The Company also retained a 1% NSR which the vendor may repurchase for $1,000,000 at any time. Accordingly, the Company recorded a loss on sale of the property in the amount of $473,912.

### e) Grew Creek, Yukon

The Company owns 100% of the Grew Creek property, subject to a 4% NSR.

## 5. MINERAL PROPERTIES (cont'd)

### f) Castle West, Nevada

In August 2014, the Company entered into a Mining Lease and Sublease Agreement (the "Agreement") with Platoro West Inc. ("Platoro") on its Castle West property in Esmeralda County, Nevada. The Castle West property consists of 74 unpatented claims leased from Platoro and two subleases of an additional 10 claims. The Agreement requires payments to Platoro totaling US$175,000 over six years, with annual payments of US$35,000 commencing on the seventh anniversary. Payments to two underlying lessors total US$113,000 over 5 years, with annual payments of $36,000 thereafter. All payments are to be credited against future royalty obligations. Platoro retains a sliding-scale net smelter royalty ("NSR") of 2.0% to 5.0%. Two underlying lessors have NSR's from 2% to 3% on portions of the property. Platoro's NSR will be reduced by royalty payments to the underlying lessors to a floor of 0.5%. Platoro is owned by a director of the Company and therefore the lease is considered a related party transaction.

### g) Other Properties

During the year ended December 31, 2015, the Company decided not to pursue certain properties and accordingly recorded impairments totaling $1,128,241.

## 6. PROMISSORY NOTE

In 2014, the Company completed the acquisition of all of the Yukon assets previously held by Americas Bullion Royalty Corp. In conjunction with the acquisition the Company issued a $4,700,000 promissory note (the "Promissory Note"). The Promissory Note bears interest at 6.00% per annum payable in tranches of $1,100,000, $1,600,000, and $2,000,000, plus accrued interest, on the first, second, and third anniversaries of the acquisition, respectively. At the Company's option, the principal and interest payments may be made in cash or common shares, where the number of shares is determined by reference to the Company's 14 day VWAP share price immediately prior to the respective payment date, less 20%. If the VWAP of the Company's shares on the TSX Venture Exchange for the fourteen trading days immediately preceding the date that is two days before the date of issue, is below $0.35 at the time of a payment which is to be settled in common shares of the Company, the Company will satisfy the payment based on a share price of $0.35. The Company may prepay the note at any time though payment of the then outstanding principal and accrued interest.

The Promissory Note is secured by the shares of Golden Predator Exploration Ltd. ("GPE"). In the event of non-payment by the Company, Till Capital would receive the GPE shares and retain any cash or common share payments to date.

During the year ended December 31, 2015, the Company entered into an Amending Agreement with Till Capital and amended the terms of the Promissory Note to the following:

- Payment schedule
  - Principal amount of $500,000 + $55,000 USD ($72,710 CAD) due June 1, 2016 (paid);
  - Principal amount of $1,000,000 due June 1, 2017;
  - Principal amount of $1,100,000 due June 1, 2018;
  - Principal amount of $1,100,000 due June 1, 2019.

## 6. PROMISSORY NOTE (cont'd)

- Interest rate
  6% per annum through to June 1, 2016;
  8% per annum through to June 1, 2017;
  10% per annum through to June 1, 2018;
  12% per annum thereafter.

The amended terms also include: 1) a return to the Company of the 0.5% net smelter royalty ("NSR") on the Brewery Creek project and a 1% NSR on the Sonora Gulch property originally granted to Till Capital in connection with the loan; 2) a requirement that all principal and interest be paid in cash (not shares of the Company); 3) retirement of $55,000 USD ($72,100 CAN) in accounts payable owing to Till Capital for services rendered; and 4) the Company has granted Till Capital an additional security interest in its Brewery Creek and 3 Aces properties.

The Promissory Note was recognized initially at fair value, and is subsequently carried at amortized cost using the effective interest rate method. The fair value of the Promissory Note was estimated using a discounted cash flow calculation, using a discount rate of 15.00% which is management's estimate of the Company's cost of borrowing at the time of the Acquisition.

| | Promissory Note |
|---|---|
| **Carrying value - December 31, 2014** | 4,189,333 |
| Principal payment on note - April 17, 2015 | (1,100,000) |
| Accreted interest in the year on original note | 367,176 |
| Re-measurement of promissory note | (125,558) |
| Accreted interest in the period on amended note | 157,961 |
| **Carrying value - December 31, 2015** | 3,488,912 |
| Principal payment on note | (572,710) |
| Payment of accreted interest | (144,740) |
| Accreted interest in the period on amended note | 161,268 |
| **Carrying value – June 30, 2016** | $ 2,932,730 |

The Company made its first payment on the Promissory Note, including principal and accrued interest, on April 17, 2015 by issuing to Till Capital a total of 3,948,571 shares at a deemed price of $0.35 per share as per the Promissory Note agreement for a total payment of $1,382,000. As a result of the minimum share price feature of the Promissory Note, the payment was satisfied by issuing shares with a market value of $0.12.

During the period ended June 30, 2016, the Company made the second payment on the Promissory Note, including principal payment of $572,710 and interest payment of $144,740.

$1,000,000 of the principal amount of the Promissory Note is payable on June 1, 2017, and is classified as a current liability as of June 30, 2016.

## 7. RECLAMATION BONDS

The Company has posted interest and non-interest bearing bonds totaling $463,663 with a financial institution and the Canadian Government as security for reclamation requirements. During the period ended June 30, 2016, $25,000 (2015 - $nil) was released from the bonding requirement due to the sale of lands previously requiring bonding.

## 8. LOANS PAYABLE

During the period ended June 30, 2016, the Company received loans in the amount of $117,935 (December 31, 2015 - $257,370) from a director. The loans bear interest at a rate of 8% per annum and are payable on December 30, 2016. During the period ended June 30, 2016, the Company accrued interest of $7,316 (December 31, 2015 - $5,384) and repaid the principal amount of the loans in full for $335,304. The Director waived the interest owed on the loan and accordingly the Company recorded a gain on forgiveness of interest for $12,701.

## 9. SHARE CAPITAL

### a) Shares issued

During the period ended June 30, 2016, the Company:

i) Closed a private placement for 2,315,000 units (the "NFT Units") and 250,000 flow-through units (the "FT Units") at a price of $0.10 per NFT and FT Unit for total proceeds of $256,500. Each FT Unit consists of one common share (the "FT Shares") and one share purchase warrant (the "FT Warrants"). Each NFT Unit consists of one common share (the "NFT Shares") and one share purchase warrant (the "NFT Warrants"). Each NFT Warrant will entitle the holder to purchase one additional common share, exercisable at a price of $0.15 per share for a period of two years from the date of issue of the NFT Warrants. Each FT Warrant will entitle the holder to purchase one additional flow-through common share, exercisable at a price of $0.15 per share for a period of two years from the date of issue of the FT Warrants. The Company paid share issuance costs of $7,783.

ii) Completed a share purchase agreement with a third party. The Company acquired 50,000 shares of Till Capital Ltd. and issued 1,875,000 units to the vendor in consideration at a fair value of $210,000. Each unit consists of one common share and one share purchase warrant, each warrant exercisable at $0.15 cents for two years.

iii) Issued 425,964 common shares at a fair value of $85,193 to certain of its suppliers as payment for services provided.

iv) Issued 135,000 common shares at a fair value of $27,000 to employees and contractors involved in the Company's bulk sample program on the 3 Aces property.

## 9. SHARE CAPITAL (cont'd)

### a) Shares issued (cont'd)

v) Closed a private placement for 21,350,000 units (the "NFT Units) and 5,650,000 flow-through units (the "FT Units") at a price of $0.16 per NFT and FT Unit for total proceeds of $4,320,000. Each NFT and FT Unit consists of one common share (the "Shares") and one share purchase warrant (the "Warrants"). Each Warrant entitles the holder to purchase one additional common share, exercisable at a price of $0.21 per share for a period of two years from the date of issue of the Warrants. The Company issued 1,274,000 finder's units at an exercise price of $0.16 per finder's unit in relation to the private placement at a fair value of $407,228. Each finder's unit is comprised of one common share and one share purchase warrant (the "Unit Warrant"). Each Unit Warrant entitles the holder to purchase one common share at an exercise price of $0.21 per share for a period of two years from the date of issue of the finder's units. The Company paid cash share issuance costs of $208,569 in relation to the private placement.

vi) Issued 427,500 common shares for proceeds of $80,100 related to exercise of stock options.

vii) Returned 10,312,154 common shares to treasury at a fair value of $5,325,688. The shares were repurchased for $1,546,823 and as a result, the Company recorded $3,778,865 to Deficit.

During the year ended December 31, 2015, the Company issued 3,948,571 common shares at $0.12 for a fair value of $473,829 under the terms of the promissory note described in note 6.

### b) Stock options and warrants

The Company has a stock option plan under which directors, officers, employees, management and consultants of the Company are eligible to receive stock options. The maximum number of common shares issuable pursuant to the exercise of outstanding options granted under the plan is 10% of the issued shares of the Company at the time of granting the options. The maximum number of stock options granted to any one optionee in a 12 month period may not exceed 5% of the outstanding common shares of the Company. Options granted under the plan may not exceed a term of ten years and vest at terms determined by the directors at the time of grant. The exercise price, expiry date, and vesting term of each option is determined by the directors at the time of grant, provided that the exercise price may not be less than the price permitted by the policy or policies of the stock exchange(s) on which the Company's common shares are then listed.

During the period ended June 30, 2016, the Company granted 3,145,000 (2015 – 165,000) options with a weighted average exercise price of $0.49 (2015 - $0.12). During the period ended June 30, 2016, the Company recognized stock-based compensation related to options of $411,625 (2015 - $30,273). The weighted average fair value of options granted in the period ended June 30, 2016 was $0.40 (2015 - $0.04) per share.

The fair value of all compensatory options granted is estimated on the grant date using the Black-Scholes option pricing model. The weighted average assumptions used in calculating the fair values are as follows:

| | 2016 | 2015 |
|---|---|---|
| Risk-free interest rate | 0.54% | 1.1% |
| Expected life of option | 3 years | 3 years |
| Expected dividend yield | 0% | 0% |
| Expected stock price volatility | 136.06% | 68.60% |

## 9. SHARE CAPITAL (cont'd)

### b) Stock options and warrants (cont'd)

Stock options transactions are summarized as follows:

| | Outstanding Options | Weighted Average Exercise Price |
|---|---|---|
| Balance, December 31, 2014 | 1,312,857 | $ 0.22 |
| Granted | 1,005,000 | 0.12 |
| Expired | (482,857) | 0.32 |
| Balance, December 31, 2015 | 1,835,000 | $ 0.16 |
| Granted | 3,145,000 | 0.49 |
| Exercised | (427,500) | 0.19 |
| Balance, June 30, 2016 | 4,552,500 | $ 0.38 |
| Exercisable, June 30, 2016 | 1,950,000 | |

The weighted average share price for the options exercised was $0.90 (2015 - $nil)

As at June 30, 2016, incentive stock options outstanding were as follows:

| Outstanding Options | Exercise Price | Expiry Date |
|---|---|---|
| 575,000 | 0.20 | August 1, 2017 |
| 450,000 | 0.10 | November 17, 2017 |
| 40,000 | 0.12 | March 23, 2018 |
| 125,000 | 0.12 | June 22, 2018 |
| 292,500 | 0.14 | October 1, 2018 |
| 865,000 | 0.17 | February 25, 2019 |
| 40,000 | 0.25 | May 2, 2019 |
| 400,000 | 0.43 | May 24, 2019 |
| 1,690,000 | 0.66 | June 3, 2019 |
| 75,000 | 0.95 | June 20, 2019 |
| 4,552,500 | | |

## 9. SHARE CAPITAL (cont'd)

### b) Stock options and warrants (cont'd)

Warrants transactions are summarized as follows:

| | Outstanding Warrants | Weighted Average Exercise Price |
|---|---|---|
| Balance, December 31, 2015 and 2014 | - | $ - |
| Granted | 32,714,000 | 0.20 |
| Balance, June 30, 2016 | 32,714,000 | $ 0.20 |

As at June 30, 2016, warrants were outstanding as follows:

| Outstanding Warrants | Exercise Price | Expiry Date |
|---|---|---|
| 2,565,000 | 0.15 | February 25, 2018 |
| 1,875,000 | 0.15 | March 3, 2018 |
| 27,000,000 | 0.21 | May 24, 2018 |
| 1,274,000 | 0.16 | May 24, 2018 (finder's units)* |
| 32,714,000 | | |

*The finder's units are exercisable into one common share and one share purchase warrant. Each share purchase warrant entitles the holder to purchase one common share at an exercise price of $0.21 share until May 24, 2018.

The fair value of all finder's units granted is estimated on the grant date using the Black-Scholes option pricing model. The weighted average assumptions used in calculating the fair values are as follows:

| | 2016 | 2015 |
|---|---|---|
| Risk-free interest rate | 0.63% | - |
| Expected life of option | 2 years | - |
| Expected dividend yield | 0% | - |
| Expected stock price volatility | 102.77% | - |

## 10. EXPLORATION EXPENSES

## 12. SUPPLEMENTAL CASH FLOW INFORMATION

**Net change in non-cash working capital**

| | Six Months Ended | |
|---|---|---|
| | **2016** | **2015** |
| Accounts receivable | $ (15,707) | $ 2,838 |
| Prepaid expenses and deposits | (6,051) | 21,490 |
| Inventory | (139,262) | - |
| Accounts payable and accrued liabilities | 221,744 | 6,512 |
| Due to related party | (13,005) | - |
| Loss on investments | - | 14,104 |
| | $ 47,719 | $ 44,944 |

The Company's significant non-cash transactions during the period ended June 30, 2016 were as follows:

a) Issued 1,875,000 shares at a value of $210,000 for a share purchase agreement.

b) Received 5,656,777 shares at a fair value of $55,573 for a mineral property.

c) Issued 425,964 shares to settle accounts payable of $85,193.

d) Issued 1,274,000 finder's units at a fair value of $407,228.

e) Transferred a fair value of $26,763 from contributed surplus to share capital on the exercise of 427,500 stock options.

The Company's significant non-cash transactions during the period ended June 30, 2015 were as follows:

a) Issued 3,948,571 shares to Till Capital at a deemed price of $0.35 per share as per the Promissory Note agreement for a total payment of $1,382,000.

## 13. RELATED PARTY TRANSACTIONS

### a) Key management compensation

During the period ended June 30, 2016, the Company paid management fees of $12,987 (2015 - $nil) to the Chief Executive Officer of the Company.

Share-based compensation includes stock options granted to directors and officers recorded at a fair value of $290,752 (2015 - $13,590).

### b) Other transactions

Accounting, consulting, administrative and corporate communications services were formerly provided to the Company by a subsidiary of the controlling shareholder. During the period ended June 30, 2016, the Company recorded professional fees of $nil (2015 - $30,356), corporate communications expenses of $nil (2015 - $7,108), and consulting fees of $nil (2015 - $46,371) related to these services.

These services were incurred in the normal course of operations for general corporate matters, attendance at committee and board meetings, as well as evaluating business opportunities. All services were made on terms substantially equivalent to those that prevail with arm's length transactions.

### c) Balances outstanding

During the period ended June 30, 2016, the Company advanced $13,005 (US$10,000) (December 31, 2015 - $nil) to a director for future expense reimbursements to be incurred in the normal course of operations for general corporate matters.

### d) Loans payable

During the period ended June 30, 2016, the Company received loans in the amount of $117,935 (December 31, 2015 - $257,370) from a director (note 8). During the period ended June 30, 2016, the Company repaid the principal amount of the loans in full for $335,304. The Director waived the interest owed on the loan and accordingly the Company recorded a gain on forgiveness of interest for $12,701.

## 14. SEGMENT INFORMATION

The Company operates in two segments, which is the exploration and development of resource properties in Canada and the USA.

| | Canada | United States | Total |
|---|---|---|---|
| Mineral Properties | $ 6,521,103 | $ 76,491 | $ 6,597,594 |

## 15. FINANCIAL INSTRUMENTS

Financial instruments include cash and any contract that give rise to a financial asset to one party and a financial liability or equity instrument to another party. As at June 30, 2016, the Company's carrying values of cash and cash equivalents, accounts receivable, and accounts payable approximate their fair values due to their short term to maturity.

The three levels of the fair value hierarchy are:
Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
Level 3 – Inputs that are not based on observable market data.

At June 30, 2016, the Company's cash and investments are based on level 1 inputs of the fair value hierarchy.

## 16. FINANCIAL RISKS MANAGEMENT

**Market risk**

Market risk is the risk of loss that may arise from changes in market fluctuations such as those listed below. The fluctuations may be significant.

**Foreign exchange risk**

The Company operates mainly in Canada but a small portion of the Company’s financial assets and liabilities are denominated in US dollars. The Company does not undertake currency hedging activities but continuously monitors its exposure to foreign exchange risk to determine if any mitigation strategies warrant consideration.

**Credit risk**

Credit risk is the risk of loss associated with counterparty’s inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents, receivables and reclamation bonds. The Company has no significant concentration of credit risk arising from operations. Cash and cash equivalents consist of cash held in bank accounts, for which management believes the risk of loss to be minimal.

Management believes that the credit risk concentration with respect to receivables is minimal. Reclamation bonds consist of term deposits and guaranteed investment certificates, which have been invested with reputable financial institutions, from which management believes the risk of loss to be minimal.

**Interest rate risk**

Interest rate risk mainly arises from the Company’s cash and cash equivalents, which receive interest based on market interest rates. Fluctuations in interest cash flows due to changes in market interest rates are negligible.

The Company's borrowings are at fixed rates. The fair value of the fixed-rate Promissory Note fluctuates with changes in market interest rates, but the cash flows do not.

## 16. FINANCIAL RISKS MANAGEMENT (cont'd)

**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its current obligations as they become due. The Company prepares annual exploration and administrative budgets and monitors expenditures to manage short-term liquidity. Due to the nature of the Company's activities, funding for long-term liquidity needs is dependent on the Company's ability to obtain additional financing through various means, including equity financing. There can be no assurance that the Company will be able to obtain adequate financing or that the terms of such financing will be favourable. At June 30, 2016, the Company had a working capital deficiency of $475,151 (December 31, 2015 – $906,587). For additional information on liquidity, refer to Note 1.

## 17. SUBSEQUENT EVENTS

Subsequent to the period ended June 30, 2016, the Company:

a) Closed a private placement for 11,036,000 Non-Flow Through Units ("Non-Flow Through Unit") at a price of $0.73 per unit, and 8,305,000 Flow-Through Units (the "Flow Through Units" and collectively with the Non-Flow Through Units referred to herein as the "Units") of the Company at a price of $1.00 per Flow Through Unit for total gross proceeds of $16,361,280. Each Unit consists of either a flow-through or non-flow-through common share of the Company, and one half of a share purchase warrant (each whole warrant referred to herein as a "Warrant"). Each Warrant entitles the holder to purchase one additional common share of the Company at a price of $1.00 per share for a period of two years from the closing date. The expiry date of the warrants can be accelerated if the Company's VWAP is $2.50 for 20 consecutive trading days, in which event the Company may give notice that the warrants expire 30 days following the Notice of Acceleration. The Company paid share issuance costs of $1,119,126 and issued 1,318,030 agent warrants under the same terms in connection with the private placement.

b) Issued 565,000 common shares for total proceeds of $84,750 related to the exercise of warrants.

c) Granted 140,000 stock options at an exercise price of $0.82 and granted 155,000 stock options at an exercise price of $0.91.
