### **Golden Predator Completes \$9.3 Million Private Placement**

**Vancouver, British Columbia, July 25, 2019: Golden Predator Mining Corp. (TSX.V:GPY, OTCQX:NTGSF)** (the “**Company**”) is pleased to announce that it has completed its previously announced private placement and issued 11,600,000 charity flow-through Class A common shares at a price of \$0.45 per share, 7,000,000 traditional flow-through Class A common shares at a price of \$0.38 per share, and 4,500,000 non-flow-through Class A common shares at a price of \$0.32 per share for aggregate gross proceeds of \$9.32 million.

The Company engaged Canaccord Genuity Corp., Clarus Securities Inc. and Power One Capital Markets Limited as financial advisors in connection with the private placement. The Company paid an aggregate of \$492,452 in finder’s fees and issued 52,632 Class A common shares and 427,140 warrants to finders. 102,840 of these finder’s warrants are exercisable into one Class A common share at an exercise price of \$0.38 per share and 324,300 of these finder’s warrants are exercisable into one Class A common share at an exercise price of \$0.32 per share, all of which may be exercised for a period of two years from the date of issuance.

The proceeds of the private placement will be applied to the Company’s Brewery Creek and 3 Aces projects and general working capital. The securities issued under the private placement are subject to a statutory hold period expiring on November 25, 2019.

Eric Sprott acquired 5,000,000 non-flow-through Class A common shares sold through the offering and increased his total ownership to 13 million Class A common shares of the Company. William Sheriff, Executive Chairman and a director of the Company, participated in the private placement and purchased 7,895 traditional flow-through Class A common shares and 133,750 non-flow-through Class A common shares of the Company. The participation by Mr. Sheriff is considered to be a “related party transaction” as defined under TSX Venture Exchange Policy 5.9 and Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* (“**MI 61-101**”). The Company is relying on the exemptions from the formal valuation and minority approval requirements contained in Sections 5.5(a) and 5.7(1)(a) of MI 61-101, on the basis that the fair market value of the transaction does not exceed 25% of the Company’s market capitalization.

The material change report to be filed in connection with the offering will be filed less than 21 days prior to the closing of the private placement. The shorter period was necessary in order to permit the Company to close the private placement in a timeframe consistent with usual market practice for transactions of this nature.

### **Golden Predator Mining Corp.**

Golden Predator is advancing the past-producing Brewery Creek Gold Mine towards a timely resumption of mining activities, under its valid Quartz Mining and Water Licenses, in Canada's Yukon. With established resources grading more than 1.0 g/t Gold and low capex to production in a safe first world jurisdiction, the turnkey Brewery Creek Mine has a clear path to production as an economically and environmentally proven project. Optimization studies are progressing to enhance the already positive multi-phase project economics described in the 2014 Preliminary Economic Assessment<sup>(1)</sup>. Drilling continues to expand the numerous open ended resources and untested targets across the 186 km<sup>2</sup> brownfield property. At 3 Aces, Golden Predator continues to expand on discoveries of native gold in quartz veins while ongoing bulk sampling and processing at our 50 tpd Company-owned processing plant has demonstrated gold recoveries of over 85% using a chemical-free process. This green gold provides the gold for the mintage of .9999 gold coins from the Yukon Mint™, a wholly-owned subsidiary of Golden Predator.
